

Update, March 11, 2011

The Trust Committee and the Trustee have examined the many applications for trust funds that have been received. The Trust received a large number of high-quality applications and the decisions on which of these should be funded were difficult. The Trustee has begun the process of notifying the applicants of the funding decisions. The applications are so numerous that this process will take some time and those that have applied for trust funds are requested to have patience.
